STATE LIBRARY

Mr. Barratt Wilkins
State Librarian

Mr. Marvin Mounce
Projects Coordinator

Mrs. Patricia Allen
Secretary

* *This council advises on the administration of the library Services and Construction Act.*

PREFACE

This edition of the Florida Library Directory contains statistical data for FY 1981-82. It includes address listings as supplied by schools, academic, institution and special libraries, and by district school media centers. It includes a name index. The computerization of the statistical data and address listings and production of this year's Directory was done by E. Walter Terrie, Florida State University Institute for Social Research, who was ably assisted by Karen L. Gross and Ron Humphries.

Statistical information was compiled from the annual reports submitted by cooperating public and institution libraries. The information reported generally follows the categories established by the National Center for Education Statistics (NCES). Public libraries used a new form devised by the State Library which incorporates the Library General Information Survey (LIBGIS) form, the 1982 Florida supplement and new questions to provide statistics on automation and output measures. This new survey form was designed to collect more information in an easily readable and understandable format. Special thanks are given to the six library directors who served as consultants in the design of this questionnaire: Polly Coe, Santa Fe Regional; Sue Crum, Wakulla Public; Matt Kubiak, West Florida Regional; Linda Mielke, Clearwater Public; Glenn Miller, Orange County Library District and Kathy Stewart, Brevard County Public. Their valuable comments and suggestions greatly contributed to the success of this form. The return rate of the survey was 92%. Most were returned with two weeks of receipt.

Academic libraries used the Higher Education General Information Survey (HEGIS). Institution libraries completed a form especially designed for them. Data was collected, analyzed and stored on computer through the services of the Florida State University Institute for Social Research. The tables contain such selective data as will facilitate a comparison of FY 1982 financial support and service activities among libraries.

In using the data it should be noted that population figures are from the Florida Estimates of Population, as of April 1982, University of Florida, and refer to permanent resident population only. Some libraries included in the address section do not appear in the statistical section. This is because the reports were not received or because they failed to meet the conditions outlined on page 117 of the Tables section.

Appreciation is expressed to all of the State Library staff who helped with the compilation of the Directory and especially to Virginia Grigg, Phyllis DeKalb, Loretta Flowers, Kathleen Mayo, Edith Paschall, Betty Ann Scott, Charlotte Whitfield and Susan Whittle.

A special note of appreciation is due to the librarians of Florida whose cooperation makes this publication possible.

--Helen Morgan Moeller
--E. Walter Terrie

Public Library Statistics

STATISTICAL ANALYSIS FOR PUBLIC LIBRARIES

FY 1981-82

Data is compiled from annual survey forms distributed to public libraries in February 1983. This was the first year using the new survey form. More information was collected and the surveys were returned more promptly than in previous years. 92% of the libraries reported. Except in cases of obvious inconsistencies where changes were made in consultation with the libraries concerned, the information is published as submitted.

Tables have been added and changed to reflect the information gathered by the new survey. Table 1 includes total collection rather than books and periodicals, Table 2 shows output measures, Table 4 on personnel has been expanded, Table 6 is ranked by population served and Table 7 has been expanded.

The survey requests information which is not reported in the tables. This information is also compiled and kept on file at the State Library. Librarians may request information from these files at any time during the year.

Florida public libraries circulated 35,906,395 items to 2,416,441 registered borrowers through 847 service outlets.

Florida public libraries have 603 librarians who have earned a master's degree in library science. Additional staff total 2,565 and the equivalent of 273 full time employees regularly volunteer in the libraries.

The libraries offered 12,535,857 books plus 2,461,338 volumes of other types of materials to 9,620,133 residents, or 1.55 volumes per capita. Circulation per capita was 3.73. The figures for FY 1981 were 1.19 volumes per capita, (based only on books and periodicals owned) and 3.55 volumes per capita circulated. Approximately 50% of the residents served asked a reference question of a library, and each book circulated an average of 2.4 times during the year.

Revenue for FY 82 totaled $71,689,808 and was received from four main sources: Local (municipal and/or county governments), 84%; State of Florida, 7%; Federal government, 2%; and other, 7%. This compares to FY 81 revenue sources of Local, 88%; State of Florida, 6%; Federal government, 3%, and other, 3%.

The libraries reported a total operating expenditure of $67,801,047 which equaled $7.05 per capita. In FY 1981, the figure equaled $6.02 per capita, and in FY 1980, $5.67 per capita.

Population projections were taken from Florida Estimates of Population, April 1, 1982, State, Counties and Municipalities (prepared by the Population Program, Bureau of Economic and Business Research, University of Florida, February, 1983). When the group that receives free library service did not correspond to count or city boundaries, we used figures provided by the library. These exceptions are noted in the footnotes in Table 1.

Some libraries which appear in the address section are not included in the statistical section. This omission was based on the failure to meet--or to be affiliated with a system that meets--any or all of the following criteria set up in Library Statistics: A Handbook of Concepts, Definitions, and Terminology (Chicago, ALA, 1966), p. 30. The library must:

1) Give at least 10 hours of public service per week.
2) Have a book collection of at least 2,000 volumes
3) Purchase at least 200 volumes per year.
4) Expend at least $1,000 per year.

POPULATION SERVED

(Footnotes to Table 1, Column 4)

1. Orange County Library District population is for Orange and Osceola counties minus Maitland and Winter Park.

2. Broward County System reported service to the total Broward County population.

3. Miami-Dade population was computed by subtracting from the 1982 Dade County figure the population figures for: Hialeah, North Miami, Miami Beach, North Miami Beach, Surfside, Bal Harbour, Bay Harbor Islands and Opa-Locka.

4. Surf-Bal-Bay serves the populations of Surfside, Bal Harbour and Bay Harbor Islands.

5. Barron serves the city of LaBelle plus the library estimate of western Hendry County.

6. Ft. Myers Beach population is figure reported by librarian for Ft. Myers Beach Tax District.

7. Palm Beach Headquarters population is figure reported by librarian for Palm Beach Taxing District.
